International Cement Microscopy Association

## **Proceedings of the Fourth Annual International Conference On Cement Microscopy March 28-April 1, 1982 Las Vegas, Nevada USA**

---

**Title:** Thoughts Regarding the ONO Method of Portland Cement Clinker Analysis

**Authors:** Prout, N. J.

**pp.** 2-3

**Title:** Application of ONO Method at Canada Cement Lafarge -- Panel Discussion

**Authors:** Chen, H.

**pp.** 4-5

**Title:** Use of the ONO Technique -- Panel Discussion

**Authors:** Hawkins, P.

**pp.** 6

**Title:** Interpretations of Burning Conditions with Powder Mounts -- Panel Discussion

**Authors:** Campbell, D. H.

**pp.** 7-8

**Title:** Comments on ONO's Method and Cement Microscopy -- Panel Discussion

**Authors:** O'Neill, R. C.

**pp.** 9-10

**Title:** Concrete Microscopy at the Construction Technology Laboratories -- Panel Discussion

**Authors:** Campbell, D. H.

**pp.** 12-13

**Title:** The Use of the Microscope in the Ready-Mix Concrete Industry -- Panel Discussion

**Authors:** Nisperos, A.

**pp.** 14-20

**Title:** The Microscope and Lime  
**Authors:** Walker, D. D.  
**pp.** 21-48

**Title:** Influence of Second Firing System Incorporated in Suspension Preheater Kilns on Clinker and Cement Quality  
**Authors:** Dreizler, I. E.  
**pp.** 50-66

**Title:** Investigation of the Formation of Portland Cement Clinker in a Pilot Rotary Kiln by the Aid of XRD and Microscopy  
**Authors:** Janko, A.  
**pp.** 67-82

**Title:** Microscopic Analysis of Portland Cement Clinker Applied to Rotary Kiln and Compressive Strength Control  
**Authors:** Hicks, J. K.; Dorn, J. D.  
**pp.** 83-91

**Title:** Clinker Quality Characterization by Reflected Light Techniques  
**Authors:** Long, G. R.  
**pp.** 92-109

**Title:** Effects of Kiln Feed Particle Size and Mineralizers of Clinker Microstructure and Cement Quality -- A Case Study  
**Authors:** Hargave; Shah; Chatterjee; Rangnekar  
**pp.** 110-127

**Title:** The Effect of Burning Environment on the Microscopic Characteristics of Portland Cement Clinker  
**Authors:** Long, G. R.  
**pp.** 128-140

**Title:** Microstructure of Alite Crystals in Portland Clinker Fused in the Induction Generator  
**Authors:** Wieja, C.; Wieja, K.  
**pp.** 141-155

**Title:** Quantitative Phase Analysis of Cement Clinker by the Analytical Electron Microscope  
**Authors:** Tamas, F. O.; Kovacs, K.  
**pp.** 156-162

**Title:** Refractory Problems in Portland Cement Manufacture  
**Authors:** Long, G. R.  
**pp.** 164-177

**Title:** Use of Heavy Liquids as an Aid in the Microscopical Analysis of Cement-Related Materials

**Authors:** Dorn, J. D.

**pp.** 178-192

**Title:** Mechanism of Hydration of Portland Cement Composite Containing Ferro Silicon Dust

**Authors:** Grutzeck, M. W.; Roy, D. M.

**pp.** 193-202

**Title:** Microstructural Analysis of Ettringite Formation: SEM

**Authors:** Cohen, M. O.

**pp.** 204-224

**Title:** The Use of the Petrographic Microscope in the Manufacture of Portland Cement and Related Technical Services

**Authors:** Werner, R. L.

**pp.** 225-234

**Title:** Study of the Causes of Mortar Failure by Means of the SEM

**Authors:** Marusin, S. L.

**pp.** 235-247

**Title:** Microstructure of Field Concretes Containing Silica Fume

**Authors:** Regourd; Mortureux; Aitcin; Pinsonneault

**pp.** 249-260

**Title:** Influence of Reaction Between Cement and Laumontite on the Microstructure of Concrete

**Authors:** Ono, M.; Nagashima, M.; Saito, S.; Asakura, E.

**pp.** 261-267

**Title:** Modified Rapid Method for Petrographic Examination of Bulk Aggregate Samples

**Authors:** Dolar-Mantuani, L.

**pp.** 268-274

**Title:** A Factor Which May Affect Differences in the Determined Air Content of Plastic and Hardened Air-Entrained Concrete

**Authors:** Gay, F. T.

**pp.** 276-292

**Title:** Microstructure of Ettringite Produced by Different Methods

**Authors:** Abo-El-Enein; Mikhail; Hekal; Zettlemoyer

**pp.** 295-302

**Title:** Microstructure of Natural and Artificial Aggregates

**Authors:** Gouda, G. R.

**pp.** 303-309
