International Cement Microscopy Association

**Proceedings of the Tenth Annual International Conference
On Cement Microscopy
April 11-14, 1988
San Antonio, Texas USA**

Title: Abnormal Flames and Their Influence on Cement Kiln Process and Quality -- A Case History

Author: Norris, D. Y.

pp. 1-16

Title: A Study of the Effect of Microstructures and Others Physical Properties of Slags on Their Hydraulic Activity

Author: Goswami, G.; Panda, J. D.

pp. 17-29

Title: Clinker Phase Identification by Automated X-Ray Diffractometry -- An Evaluation

Author: Sarker, S. L.

pp. 30-41

Title: Morphology and Microstructure of Clinker Samples Produced by Cri-MVSK Mini Cements Plants

Author: Raina, K.; Chatterjee, S.; Irani, D. B.

pp. 42-57

Title: Microscopical Investigation on the Pozzolanic Behavior of Fly Ashes

Author: Tennoutasse, N.; Marion, A. M.

pp. 58-70

Title: Investigations on Microstructural Behavior and Performance of Non-Portland Binders

Author: Narang, K. C.

pp. 71-81

Title: Direct Measure of Spacing Factor in Air Entrained Concrete
Author: Buckingham, W. F.; Spaw, J. M.
pp. 82-92

Title: Kiln Feed Homogeneity and Clinker Microscopy
Author: Norris, D. Y.
pp. 93-98

Title: Phase Segregation in Portland Cement During Grinding
Author: Sarker, S. L.; Aitcin, P. C.
pp. 99-114

Title: Rice Husk Ash Cement
Author: James, J.; Rao, M. S.
pp. 115-130

Title: Characterization and Properties of the New Calcium-Silicate-Hydrates [C-S-H (111) and C-S-H (112)]
Author: Hannawayya, F.
pp. 131-150

Title: The Effect of Crystallinity of Limestone and PSD of Kiln Feed on the Dust Emiss., Specific Power Consumption, and Clinker Output
Author: Rao, D. B.
pp. 151-176

Title: Problem in Cement Strength Decrease and Its Solution Using Microscopy
Author: Arbelaez, C.
pp. 178-201

Title: ONO Evaluation of a Cement Clinker Produced Using By-Product Phosphogypsum as a Source of CaO
Author: Dutoit, P.
pp. 202-211

Title: Microscopical Investigations of Some Historic Mortars
Author: Knofel, D. F.; Wisser, S. G.
pp. 212-222

Title: SEM Coupled with EDAX: A Convenient Technique for the Diagnosis of Chemical Pathology in Cement-Based Material
Author: Tennoutasse, N.; Marion, A. M.
pp. 223-236

Title: The Use of Microscopy and X-Ray Diffraction Analysis in the Study of a Case on Concrete Cracking

Author: Battagin, A. F.

pp. 237-249

Title: The Effect of Fly Ash on the Sulphate Resistance of Concrete

Author: Tikalsky, P. J.; Carrasquillo, R. L.

pp. 250-264

Title: Microstructure and Durability of Limestones

Author: Marusin, S. L.

pp. 265-276

Title: Industrial Applications of Quantitative Study of Portland Cement Clinker Through Reflected Light Microscopy

Author: Cariau, B.; Ranc, R.; Sorrentino, F.

pp. 277-284

Title: QXRD in Cement and Clinker Phase Analysis: Its Progress and Limitations

Author: Sarkar, S. L.; Roy, D. M.

pp. 285-297

Title: Preliminary Results on a Petrographical Examination of Alkali-Silica Reaction Damage in Belgium

Author: Soers, E.

pp. 298-305

Title: Aspects of Cement Performance in Concrete as Revealed by Clinker Microscopy

Author: Miller, F. M.; Venable, R. L.

pp. 306-323

Title: Effect of Organic Additives on the Hydration Behavior of the Aluminate Phase of Cement

Author: Poellmann, H.

pp. 324-343

Title: Identifying Fly Ash, Slag and Silica Fume in Blended Cements and Hardened Concrete

Author: Papadopoulos, G.; Suprenant, B.

pp. 344-356

Title: Optical Instrumentation for Cement Microscopy

Author: Fryer, F. E.

pp. 357-360

Title: Seawater Hydration of Early 20th Century Cement, Biscayne Bay Shipwreck, Florida, U.S.A.

Author: Campbell, D. H.

pp. 361-372

Title: Petrographic Identification of a High-Range Water-Reducing Admixture in Hardened Concrete

Author: Randolph, J. L.

pp. 373-382

Title: Penn DOT Experiences in Cement Microscopy

Author: Reidenouer, D. R.

pp. 389-407

Title: Clinker Microstructure Differences Between Two Identical Kilns -- A Comparative Study

Author: Jany, L. A.; Renninck, M. A.

pp. 408-413

Title: Examples of Inhomogeneities in Cement Paste in Concrete

Author: Jensen, A. D.; Chatterji, S.; Brandt, J.

pp. 414-419

Title: Oil Well Cement Panel Discussions: Factors Which Influence the Performance of a Cement

Author: Weigand, W. A.

pp. 420-421
