

icma

International Cement Microscopy Association

**Proceedings of the Eighteenth Annual International
Conference On Cement Microscopy
April 21-25, 1996
Houston, Texas**

Author: W. Bullock, L. Jany

Title: Microscopy and LDMS - A Cost Effective Complete Storage Solution for Clinker Sample Analysis

pp: 1-9

Author: P. Stutzman

Title: Pattern Fitting for Quantitative X-Ray Powder Diffraction Analysis of Portland Cement and Clinker

pp: 10-20

Author: F. Slim, A. Tagnit-Hamou, E. Marciano, Jr.

Title: Use of Optical Microscopy on Raw Meal Fineness Optimization

pp: 21-32

Author: S. L. Marusin

Title: The Role of SEM X-Ray Elemental Analysis and DOT MAP Studies in Evaluating Building Materials Failures

pp: 33-45

Author: I. Maki, K. Masaki, T. Toi

Title: Effect of Burning Conditions on Belite Clustering in Portland Cement Clinker

pp: 46-54

Author: M. Moukwa

Title: General Behavior and Microstructure Evaluation of a Concrete Exposed to the Artic Sea

pp: 55-73

Author: L. J. Powers-Couche, F. M. Miller

Title: A Tale of Two Kiln Burners

pp: 74-84

Author: H. J. Kuzel

Title: Rietveld Quantitative XRD Analysis of Portland Cement: Part I. Theory and Application to the Hydration of C3A in the Presence of Gypsum

pp: 87-99

Author: J. Neubauer, H. J. Kuzel, R. Siber

Title: Rietveld Quantitative XRD Analysis of Portland Cement: Part II. Quantification of Synthetic and Technical Portland Cement Clinkers

pp: 100-111

Author: H. H. Patel, C. H. Bland, A. B. Poole

Title: Microstructure and Sulfate Levels Within the Hydrated Matrix of Steam Cured Concrete

pp: 112-124

Author: E. Viggh, A. Edholm

Title: The Effect of Burner Configuration When Using Plastic Derived Fuels on Clinker Microstructure

pp: 125-133

Author: P. Du Toit

Title: The Use of Tswana-Only Limestone for Clinker Production at the Blue Circle Cement Lichtenburg Plant in South Africa

pp: 134-148

Author: B. Middendorf, Th. Eisenhut, H. Budelmann

Title: Microstructure and Properties of Hardened Fine Cement Suspensions

pp: 149-160

Author: A. D. Jensen

Title: Microscopy of Old Concrete Structures

pp: 161-170

Author: D. Knofel, W. Winnefeld

Title: Investigations on Historical Mortars with Microscopic Methods

pp: 171-184

Author: J. Soto, W. Rodriguez, A. Mishulovich, F. Camillo, I. D'Apollo, M. I. Specht

Title: HDH-SR as an Alternative Fuel for Cement Industry

pp: 185-204

Author: J. F. Wang, J. Adler

Title: Microstructure and Resistance Against Chemical Attack of High Performance Concrete
pp: 205-214

Author: T. V. Rasmussen

Title: Fracture Formation in the Interface of Fiber Reinforced Cements
pp: 215-234

Author: M. I. Specht, J. Soto, A. Blanco, W. Rodrequez, R. Garcia

Title: Morphological Changes of Aluminate Phases Using Refractory Material in Cement Slurry
pp: 235-245

Author: P. Du Toit

Title: Preliminary Results of the Investigation into the Burnability of Raw Materials from Lichtenburg, South Africa
pp: 247-254

Author: S. L. Sarkar, S. E. Coleman

Title: Concrete Deterioration Depth Profile Determination in a Lift Station
pp: 255-271

Author: M. Murat, F. Sorrentino

Title: Effect of Large Intakes of Cd, Pb, Zn to Cement Raw Meal on the Mineralogical Composition of the Clinker
pp: 272-283

Author: R. Sieber, H. Pollmann, P. Brunner

Title: Investigations on Clinker Microstructure, Hydration Characteristics and Quality Coming From Varying Burning Conditions in the Kiln Using Waste Fuels
pp: 284-303

Author: M. Degenkolo, D. Knofel

Title: Expansive Additives in Lime and Slag Based Mortars
pp: 304-316

Author: A. K. Tamimi

Title: Investigations of the Microstructural Improvement of the Cement Paste-Aggregate Interface for Concrete Produced by the Two-Stage Mixing Technique
pp: 317-330

Author: S. Ehrich, E. Bock

Title: Biogenic Sulfuric Acid Corrosion
pp: 331-341

Author: D. Damodat, F. Sorrentino

Title: Observation of the Hydration of Cement Paste by ESEM: Care Needed to Study the Early Hydration

pp: 342-355

Author: K. O. Kjellsen, A. Monsoy

Title: Preparation of Flat-Polished Specimens of High-Performance Concrete for SEM: Backscattered, Election Imaging and Microanalysis

pp: 356-364

Author: S. Guise, N. Short, J. Purkiss

Title: Petrographic and Colour Analysis for Assessment of Fire Damaged Concrete

pp: 365-372

Author: J.Skalney, K Scrivener,W.Hime,S.Diamond,B.Erlin

Title: Panel Discussion, Delayed Ettringite Formation

pp: 373-381

Author: S. Bremseth, K. Svinning, H. Jostnes

Title: X-Ray Diffraction Studies on Variations in Microstructure in Portland Clinker Correlated to Variations in Production Conditions in the Kiln

pp: 382-403

Author: S. L. Sarkar, W. L. Vogt

Title: An Incidence of Alkali Silica Reaction Under Highly Unusual Circumstances

pp: 404-415

Author: W. Nocum'-Wczelik

Title: Microstructure of Calcium Sulphate Materials

pp: 416-428

Author: M. R. Sanyal, A. K. Parashar, S. K. Bandopadhyay

Title: Application of Microscopy for Characterization of Fly Ash and Slag in Blended Cements

pp: 429-444

Author: P. DuToit

Title: A Personal View of ICMA Exchange Sample - #48, #49, and #50

pp: 445-452

Author: A. Boikova

Title: Microscopic and X-Ray Study of Real Clinker Phases and Thier Hydration Reactivity

pp: 453-458

Author: S. Huisheng , C. Zhujan

Title: Study on the Microstructure and Hydration Activity of CaO

pp: 459-464

Author: S. Diamond, Yuting Wang

Title: A Quantitative Image Analysis Study of the Influence of Superplasticizer on Cement Paste Microstructure

pp: 465-479

Author: M. Leeman, S. Sarkar

Title: Petrographic Identification of Quality Control Failure in a Concrete

pp: 480-492

Author: Ali Ayman Kamel

Title: Utilization of SEM for Determination of Fabric Characteristics of Different Gypsum and Anhydrite Deposits in Egypt

pp: 493-513

Author: K. Svinning , S. Bremseth

Title: The Influence of Microstructure in Clinker and Cement on Setting Time and Strength Development Until 28 Days

pp: 514-533
