International Cement Microscopy Association

**Proceedings of the Sixth Annual International Conference
On Cement Microscopy
March 26-29, 1984
Albuquerque, New Mexico USA**

Title: Preparation of Polished Sections by a Less Time Consuming Technique

Authors: Harris, R.

pp. 1-4

Title: Novel Microscopy Technique for Studying the Microstructure of Clinkers and Hydrated Cements -- Some Preliminary Results

Authors: Barker; Barnes; Fisher; Jennings

pp. 5-19

Title: Influence of the Burning Process on the Morphology and Microstructure of Indian Cement Clinkers

Authors: Samuel, G.; Rao, V. V.; Chopra, S. K.

pp. 20-36

Title: Quantitative Phase Delineation of Four American Clinkers by SEM-EDS

Authors: Sarkar, S. L.; Roy, D. M.

pp. 37-46

Title: The Microscope as a Tool in Cement Clinker Quality Troubleshooting -- A Case History

Authors: Norris, D. Y.

pp. 47-60

Title: Microstructure of Coloured Clinkers

Authors: Laxmi, S.; Ahluwalia, S. C.; Chopra, S. K.

pp. 61-77

Title: Grindability of Clinker

Authors: Buchanan, C. E. Jr.; Bayles, H. J.

pp. 78-144

Title: Backscattered Electron Images of Polished Cement Sections in the SEM
Authors: Scrivener, K. L.; Pratt, P. L.
pp. 145-155

Title: A Review of Techniques for Phase Delineation Within Cement in the SEM
Authors: Barker, A. P.; Barnes, P.
pp. 156-172

Title: Oil Well Cement Panel - Remarks
Authors: McElfresh, P.
pp. 174

Title: What We Like or What We Don't Like in an Oil-Well Cement -- Panel Discussion
Authors: Nelson, E. B.
pp. 175-181

Title: SEM Studies on Clinker and Cement Pastes Containing Superplasticizer Based on Paper Plant Black Liquor and Alkalicarbonates
Authors: Rao; Sharma; Jain; Syal; Chopra.
pp. 182-194

Title: Preparation and Properties of Magnesium Oxysulfate Cement
Authors: Anani, A. A.; Gouda, G. R., Attari, S.
pp. 195-204

Title: On the Hydration Kinetics of Portland Cement Mixed with Fly Ash
Authors: Hannawayya, F.
pp. 205-218

Title: Hydration Kinetics and Microstructure of Ettringite
Authors: Abo-El-Enein; Al-Nauimi; Marusin; El-Hemaly
pp. 219-231

Title: An Examination of the Normal Setting of Portland Cement Containing Borogypsum
Authors: Bensted, J.
pp. 232-242

Title: Clinker Fineness - Its Causes and Effects
Authors: Long, G. R.
pp. 243-250

Title: Properties and Microstructure of Sand Lime Bricks
Authors: Al-Shallal, S. K.
pp. 251-264

Title: The Estimation of Activity and Glass Content of Blast Furnace Slag by Microscopic Observation

Authors: Dengler, T. R.; Montgomery, J. R.

pp. 265-275

Title: Alkali Silica Reaction in Concrete -- SEM & EDX Analyses

Authors: Samuel, G.; Mullick, A.; Ghosh, S. P.; Wason, R. C.

pp. 276-291

Title: Preparation of Concrete Samples for Petrographic Studies

Authors: Ray, J. A.

pp. 292-308

Title: The Devel. of Quant. and Qual. Microscopic Control of Concr. Qual. and **Authors:** Durabil. and of a Frost-Salt Resistance Test with Rapid Cycl

Author: Wilk, W.; Dobrolubov, G.; Romer, B.

pp. 309-329

Title: Microscopic Quality Control of Concrete During Construction

Authors: Wilk, W.; Dobrolubov, G.

pp. 330-343

Title: Cracking and Failure Mechanism of High Strength Concrete Subjected to Biaxial State of Stress

Authors: Carrasquillo, R. L.

pp. 344-359

Title: Deterioration of Concrete Containing a Carbonaceous Sulphide-Bearing Aggregate

Authors: Oberholster, R. E.; Dutoit, P.; Pretorius, J. L.

pp. 360-373

Title: Distribution, Shape of Pores and Microstructure of Conventional Portland Cement Concrete and Concrete Containing Admixtures

Authors: Marusin, S. L.

pp. 374-383

Title: The Influence of Thermal History on Air Content and Air Void System Parameters of Concrete of Differing Cement Factors

Authors: Gay, F. T.

pp. 384-401

Title: Factors Affecting Image Analysis for Measurement of Air Content in Hardened Concrete

Authors: Roberts, L. R.; Scali, M. J.

pp. 402-419

Title: Theory of Etch Color Development in Portland Cement
Authors: Dorn, J. D.
pp. 420-426

Title: Exact Characterization of Portland Cement Clinker Using Visual Linear Analysis
Authors: Scheubel, B.
pp. 427-437

Title: Development and Application of Devices to Study Cracking Within the SEM
Authors: Diamond, S.; Mindess, S.; Bentur, A.; Lovell, J.
pp. 438-452

Title: Effect of Some Super-Plasticizers on the Hydration Kinetics and Microstructure of Blended Cement Pastes
Authors: Salem, T. H.; Abo-El-Enein, S. A.
pp. 453-464

Title: Microstructure of Magnesite/Chromite Materials Examined After Their Work in a Cement Clinker Baking Furnace
Authors: Wieja, C.
pp. 464-476
