Dear ICMA Members, Participants, & friends:

ICMA will be celebrating its **41st** Founding Anniversary and we would like to celebrate with us with more than four decades of providing excellent annual conferences in North America, Central America, and Europe on cement and concrete microscopy and related materials.

I would like to invite you and your colleagues and friends to present paper(s) for the **41st** International Conference on Cement and Microscopy to be held on April 14-17, 2019 at the beautiful Bahia Resort Hotel, San Diego, California, U.S.A.

Attached is the **CALL FOR PAPERS** for the above-mentioned conference., Please be informed that the deadline date for submission of abstracts has been extended on or before **December 31, 2018**. Please inform me if you cannot meet the deadline date and arrange for a favorable date to submit the abstract of your intended paper provided we are within the time frame of the printing of the program.

For your information, it is now possible to send in also manuscripts with peer review process for publication in the ICMA Proceedings. For authors interested in peer reviewed manuscript publications, it is possible now to send in their completed manuscripts on or before December 31, 2018. Manuscripts that are received later cannot be considered for peer review process, but can be included in the proceedings.

Information on conference and hotel registrations and the preliminary program will soon be obtained through the ICMA web page (www.cemmicro.org).

I hope for your positive reply and I look forward to your participation at the **41st** ICMA Conference.

Very truly yours,

Arturo G. Nisperos
